EXPERIENCE

Twimbit

May 2022 – Mar 2025

UI/UX Designer

Twimbit is a tech-forward research and advisory firm leveraging AI to deliver private and contextual insights.

- **Led end-to-end product design** for “Buddy,” an internal AI platform that evolved into a client-facing productivity tool.
- **Improved workflow efficiency by 30%** and conducting user interviews with the research team to uncover CMS bottlenecks, directly informing Buddy’s assistant and workflow features.
- **Contributed to a 15% rise in client inquiries** through enhancements in product design and user engagement strategy.
- **Streamlined cross-functional collaboration** by working efficiently with the founders, AI team and development teams to brainstorm, develop and deliver on products and features.
- **Revamped brand identity and design systems** while collaborating with an external design studio, aligning creative direction with stakeholder goals across web and product.
- **Improved website event engagement by 200%** through two major design iterations.
- **Pitched and led the “Sparks” merchandise initiative** to strengthen brand morale and identity with clients.
- **Mentored junior designers** on the new design system and brand alignment.

Hexcoderz

Dec 2021 – Mar 2022

Junior UX Designer

Hexcoderz was a Multi-Disciplinary Design Studio based out of Goa.

- **Contributed to design execution** for client-facing websites and apps building user personas and wireframes with engaging narratives.
- **Engaged with the brand image and design philosophy** to align the projects UI to the studio’s signature design philosophy and emphasis on minimalism and pixel-perfection.
- **Created concept-driven proposals** for projects that called for imaginative, out-of-the-box design thinking.
- **Worked cross-functionally** with founding members as well as the other designers to build digital experiences.

Hexcoderz

Aug 2021 – Nov 2021

Design Intern – UI/UX Design

Hexcoderz was a Multi-Disciplinary Design Studio based out of Goa.

- Created wireframes and mock-ups for products while also joining the founders on brainstorming sessions.
